

The Association
of Commonwealth
Universities

Welcome to **ACU membership**

**Joining pack for
new ACU Ambassadors**

Hello and welcome

I would like to warmly welcome your university into membership of the Association of Commonwealth Universities – we are delighted that you are now members and we are looking forward to working with you.

You are now part of a global network of universities with a shared commitment to building a better world through international collaboration in higher education. The ACU was established in 1913 by 53 universities to lead action in matters of common interest. Now with 400 universities in 40 countries across the Commonwealth, we are one of the largest and most diverse international university networks in the world. We are also the only accredited organisation representing Higher Education across the Commonwealth.

My team has put together this pack to help you to make the most of your ACU membership. Read on to find out how you can connect with, and learn from, your peers around the Commonwealth, and how your leadership, faculty, professional services staff and students can take advantage of all the opportunities that we offer for international collaboration.

As an ACU Ambassador, you have been nominated as a focal point to promote the benefits and opportunities available through ACU membership to relevant colleagues across your university. We would also really like to hear about news, priorities and success stories from your university! You can find contact details for our team later in the pack.

All the best,
Kathryn Jack
